

VTCT NVQ Level 2 Diploma Barbering

Our NVQ level 2 barbering course is a fast-track to become a qualified barber. This course is for complete beginners or hairdressers who want to train as a barber and is the quickest way to gain an NVQ. NVQ's are qualifications based on VTCT, which represents the hairdressing and beauty industry. They are designed to assess on the job ability and are recognised by employers as a hallmark of proven skill.

NVQ's are unit based, allowing candidates to gain credit for one unit at a time or working towards gaining the full award. Upon completion of the course, you will achieve an NVQ Level 2 certified by awarding body VTCT.

Train in groups of no larger than six per a tutor this means you get the attention and time you deserve from the tutors. It also helps you master the techniques quicker meaning you will be able to move onto live clients a lot sooner than you would in a larger group, this will help make you ready for the workplace when upon completion of the course. Our Lazarou tutors have many years of professional experience behind them and unlike other academies and colleges we operate a salon and barber shop so there are real job opportunities upon completion.
